## DETAILED ACTION

### *Election/Restriction*

This application contains claims directed to the following patentably distinct species of the claimed invention: 1) Plants; *Prunella Linn* or *Rabdosia* (Blume) *Hasskari* 2) Wherein the extract is from the whole plant or only the above parts of the plant 3) Concentration of corosolic acid (i.e., 0.1%, 1% 10%or 50% by weight 4) Conditions ;i.e., hypertension or obesity for example (claim 27) 5) Another hypoglycemic agent such as insulin or tolazamide for example (claim 31) 6) First polar solvent such as tetrahydrofuran or ethanol for example and 7) Second polar solvent such as chloroform or benzene for example.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species from *each* of 1-7 above for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, all claims are generic to at least one of 1-7 above.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim

Art Unit:1654

is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one

Art Unit:1654

or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to examiner Patricia Patten, whose telephone number is (703)308-1189. The examiner can normally be reached on M-F from 9am to 5pm.
